

Level 3 Advanced Technical Diploma in Hairdressing

Lesson preparation – ready September 2025

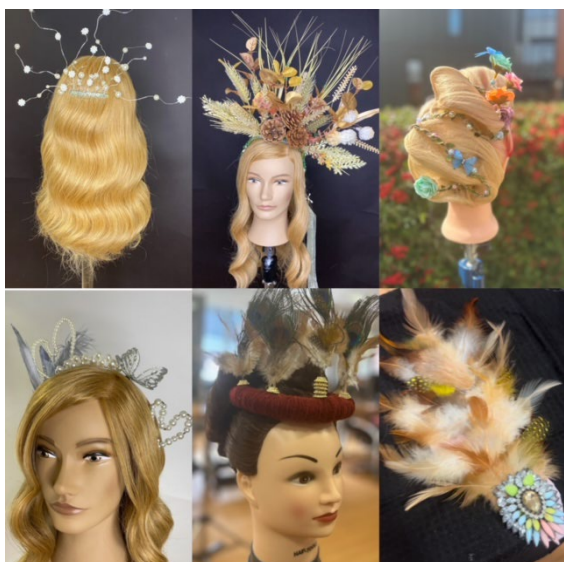

Make a piece of creative ornamentation and incorporate it into a hair style design

Your task is to source items from car boot/charity shops/jewellery boxes that could be constructed with wire, glue guns and fabric to make a fascinator/headress or an ornamentation piece that will compliment a long hair up/down hairstyle that you will create, on your 'WSUK' blonde tuition head that is in your L3 hairdressing kit.

You are also required to create an electronic mood board through **Pinterest Shuffles** showing the inspiration of the hairstyle that will link to you physically designing and making the ornamentation and choosing a hairstyle that will complement the total look.

Mood board and craft items need to be sourced and brought in for class on the first week of the course in September alongside the tuition head and kit to complete the task and to photograph the results
