

Level 1 - Carpentry and Joinery

Summer Project

Welcome to the Carpentry and Joinery Level 1 summer project. We require you to design a leaflet which you will hand in on the first day of college.

We will be looking for you to use your creative skills and answer the questions below:

- What is a carpenter in history?
- Why is a carpenter called a chippy?
- What is the oldest carpentry in the world?
- What is the oldest evidence of woodworking?
- What is the old name for carpenter?
- What do they call a carpenter in England?
- Where did the word carpentry come from?
- Tools which a modern carpenter use over a carpenter 100 years ago?
- What is the difference between a carpenter and a joiner?
- What do carpenters make?
- What do joiners make?

*This needs to be done on A4 paper, using font no bigger than 12 and a minimum of 4 sides.
Please corporate pictures to the leaflet.*

All work is to be handed in and graded on the first day of term, failure to complete the work may reduce your place on the Level 1 Carpentry course.
