CONSTRUCTION COMPETITION

Build the Tallest House from Food

What do we need to do?

We would like you to build the tallest model house you possibly can, using nothing but food and using as many different types of food as possible. Read the Construction Challenge guide and/or watch the instructional video as both give ideas and tips, but you don't have to copy them exactly. Our judges will be awarding points for culinary imagination, not just the height, so think crazy!!!

What are the entry levels?

This competition is for Key Stage 3 and upwards.

How do we enter?

First you must register your school at <https://www.wsc.ac.uk/about-the-college/buildtastic>
Then send your photos or a video of no more than two minutes by email to buildtastic@wsc.ac.uk

When is the closing date?

Entries must be received by 6pm on **Friday 6th November 2020**

When do we find out if we have won?

Winners will be informed by email on: 13th November 2020

What could we win?

The prize for each entry level is a **day of Construction activities** for your class (up to **30 children**) at our Milburn Built Environment Campus in Bury St. Edmunds, this will include a **picnic style lunch** and a **£100 contribution towards your transport costs**. The activity days will be held in late June early July 2021, dates to be confirmed.

Any questions please email buildtastic@wsc.ac.uk

GOOD LUCK!

This project has been part funded by the European Social Fund.
